This is another email received from the (b) (6).

I've received no further public emails on this project to my recollection.

Please let (b) (6) know the records she would need to send.

Thanks!

The final report will be posted online; however, comments will likely not be displayed verbatim, but summarized due to the magnitude of comments. I've copied a team member for any further questions you may have on this.

Thanks!

Thank you for responding. So the actual comments will not be available to the public online or in another way?

(b) (6),

With the significant volume of comments we received for this project, we will likely be summarizing the comments and responses in a table to be included with the final report. I am clarifying timeframe for final report, but the team is still working through addressing these comments.

Where can I find the public comments on the ACE proposed Belle Haven Floodwall in Virginia? It's part of a larger project affecting Arlington, Fairfax County, Prince William County and National Airport.
